ZULANGO, THE DENOUNCER," is unquestionably the best story which this pepular author has ever given to the public. It is an entirely original conception, and must add greatly to the fame of the writer, as well as to the circulation of THE WEEK-LY. It is a powerfully-wrought narrative; the scenes are stiring, and the characters introduced are graphically described.

Determined to take the lead of all their cotemporaries, the proprictors of The New-York Weekly have entered into arrangements with a number of the leading novelists of the present day and, among others, they are happy to announce the well know.

and universally admired HARRY HAZEL,
formerly a favorite contributor to The Flag of Our Union, StarSpangled Banner, Yankee Privateer, and other popular story papers. HARRY HAZEL's first story (a thrilling Indian remance)

"The picture of Prairie Farming is drawn, not by a smart Eden land agent or speculator, in the hope of taking in unwary Britishers, but by an embrent English agriculturiat. Nor is the reader invited to place a blind faith in Mr. Caird's conclusions. They are given in such a form as to show the exact amount of personal knowledge and local experience from which they spring; and the steps in his calculations are in general easy and obvious enough for the most ordinary intellect to follow. And, as far as we can judge, no element in the purely economical aspect of the question has been misstated or forgotten.

It is difficult for the Canadian backwoods to rival the attractions.

A new and carefully revised edition. Edited by O. W. Wight. Four volumes, 12mo., cloth, 45.
This edition of Montaigne's Works is a reproduction, with corrections and important additions, of Mr. William Haglitt's edition, published by Templeman in London. Hitherto, the edition of Mr. Haglitt has been the best in the English language. Our edition is incomparably superior to his in typography, beside being more complete and more correct. Our editor and the Cambridge printers have verified the classical quotations of Montaigne (nearly three thousand in number), new letters of Montaigne have been added, bibliographical and critical notices have been extended, and the fourth volume prefaced with a biography of Montaigne (20 pages love), shridged especially for this edition from the recent work of Mr. Bayle St. John. This edition also contains a Portrait and copious Index. For beauty of typography, convenience of form, correctness and completeness, the publishers confidently promise an unequaled edition of the quaint old Gascon Essaylst.

on the Character and Genius of Fenelon, by Villemain, Critical Notices of Fenelon, from various sources; an account of the different editions of Fenelon's Works, and Dr. Hawkesworth's Translation of Teleraschus, carefully revised throughout. There are added, in the form of foot-notes, literal translations of those fine passages from the ancient authors imitated by Fenelon.

"Telemachus is the most perfect treatise upon education and political economy that exists in modern times; and this treatise has the unusual merit of being, at the same time, a poem, a moral essay, and a narrative."—Lamartine.

"When we think of Fenelon in the palace of Louis the Four-teenth, it reminds us of a seraph sent on a divine commission into the abodes of the lost; and when we recollect that in that accounts of the world furnish stronger evidence of the power of divine virtus to turn tempetation into glory and strength, and to make even crowned and presperous vice a means of triumph and exaltation."—[Dr. Channing.

cal—on the Gospel of Luke, for the use of standards, private Christians, Bibbe Classes, and Sabbath-Schools. Students, private Christians, Bibbe Classes, and Sabbath-Schools. By Jony J. Owes, D. D.

The same general plan and style of annotation which characterize his commentary on Matthew and Mark, have been observed in the preparation of the present volume. The author has sought to avoid all technicalities and abstrate terms, and to render the Commentary casy of comprehension to the most plan and unlettered mand. At the same time, it is hoped that this has not been secured at the sacrifice of thoroughness of exposition and a full use of the canons of exercis and have of interpretation accepted by all scholars in every country.
